

## **PARTICIPATORY BUDGETING PROJECT PROPOSAL**

**Committee:** Education

**Project Title:** Money for our Local Schools

**Cost:** \$40k

**Location:** Los Paseos Elementary, Martin Murphy Middle School

**Short Description:** Donation of \$20, 000 each to the two schools in the grant area.

**Long Description:** We have great local public schools with very hard working teachers. Granting \$20,000 each to our local public schools will allow them to fill in budgetary gaps. The 2 schools who serve a majority of our children are:

- Los Paseos Elementary School
- Martin Murphy Middle School

The money will be donated to each schools' Home & School Club. There would be a stipulation that the Principal of each respective school will have discretion as to how the money will be spent on their campus.

With better schools comes better opportunities for our children. And it boosts YOUR property value! It's a win-win-win! Please vote for this because it's a small amount out of the \$1 million, but it will do so much for our schools. Thank you!
